

## **Permanent Position – Trimmer/Fitter**

Codem Composites is a technology business firmly embedded in the rapidly expanding market of carbon fibre component manufacture. Our focus is in the provision of a complete solution to the challenges facing our customers, in their search for the optimisation of their own product performance. Being at the leading edge of our industry, together with a diverse spread across different market sectors, has given us the advantage of a broader understanding of composites as an engineering medium.

We are looking for experienced fitters to join our composite fitting department, for trimming/fitting of structural carbon components, mainly for Formula 1 and Satellite customers. Components are pre-preg material, vacuum bagged, and autoclave cured.

Reporting into and supporting the Supervisor in the efficient running of the department by meeting job timescales and demands, whilst completing jobs to the highest of standards

### **Successful applicants will exhibit the following abilities:**

- To trim and fit components & moulds as specified by customer drawings and operating procedures
- Proven experience and application of surface preparation for bonding metallics and composites
- To ensure components & moulds are trimmed and fitted in a timely manner, to excellent quality standards and deadlines
- Fully competent in de-moulding components without damaging either the part or the mould using the correct tools
- Excellent understanding and interpretation of complex technical drawings
- To trim, fit and bond complex assemblies with sub-assemblies, inserts & fixings
- Experience in preparation and application of composite repairs
- Able to highlight issues relating to the trimming and fitting procedure
- To finish components and moulds to the highest of standards required by the customer

### **Key skills for the role include, but not limited to:**

- Work effectively as part of a team and under own initiative
- Strong communication skills
- Be resourceful and adaptable with good interpersonal skills
- Ability to work under pressure
